#garden #user-friendliness

Educational and fun workshops on the theme of urban gardening.

Structure : Urban Seeds

Vaulx-en-Velin Auvergne-Rhône-Alpes

Urban gardening to connect with nature, and through nature

Our goal is to help city dwellers (re)discover the connections we can create with nature and through nature.

We support city dwellers in the Lyon area, young and old alike, in their gardening projects.

To do this, we lead educational and fun workshops centered on the theme of urban gardening.

We also have a participatory and educational garden at the Espace Carmagnole, in the city of Vaulx-en-Velin, in the La Soie neighborhood.
