#animation #gardening #workshop

Educational farm dedicated to raising awareness about the environment and sustainable development

Structure : Croix Rousse Farm

Lyon | Auvergne-Rhône-Alpes

A local, community-based, and intergenerational project! An educational farm dedicated to raising awareness about the environment and sustainable development

Activities

The farm's grounds allow us to explore various themes *(wild and cultivated flora, eco-gardening and agroecology, wildlife, composting, beehives, chicken coops, etc.)* and tailor them to the specific audience by offering a variety of methods and approaches.

ÉcolAlaferme

The farm welcomes daycare centers, elementary schools, and middle schools for school and after-school activities as part of partnership projects.

The world of plants.

- Identifying plants using the five senses.
- Discovering plants and their uses (edible, aromatic, medicinal, and dye plants…).
- Understanding the interactions between plants and their environment, and their role in the ecosystem.

Compost

- Discover various composting techniques, what sets them apart, and how to implement them.
- Understand what compost is and what it is used for.

All About Bees

- Learn about bees: their anatomy and life cycle, and gain a better understanding of their way of life, particularly as social insects.
- Discover life in the hive (composition, functioning, organization, etc.).
- Understand the role of the bee in its environment and in the ecosystem.

Birds

- Learn about the morphological characteristics of birds and their life cycle.
- Understand the role of birds in their environment and in the ecosystem.
- Discover and become aware of diversity among birds and biodiversity in general.

AnimaTerre

The AnimaTerre platform brings together several community education organizations active in the Croix-Rousse neighborhood to organize extracurricular activities.

Workshops/Training

Various workshops and training sessions are offered by our volunteers or partners to members

throughout the year…
