ESTABLISHING AN EDIBLE FOREST IN THE FLANDRE-LYS COMMUNITY OF MUNICIPALITIES

Structure : THE FOREST OF FLAVORS

Hauts-de-France

An association established to support a community-driven project aimed at creating an edible forest within the Flandre-Lys Community of Communes. The forest is intended to eventually host educational tours and help establish other community-based edible forests.

-
-

OUR OBJECTIVES:

- •to be a driving force in the ecological transition and the protection of the natural environment through all the co-benefits derived from these new wooded areas (soil protection, soil fertility, the water cycle, a cooling effect, carbon sequestration, and the restoration of associated biodiversity);
- •ultimately support local autonomy and solidarity;
- •encourage learning about the cultivation of any edible or ornamental plant on the fruit forest site

OUR ACTIONS:

- create and develop fruit forests;
- maintain these orchard forests, including planting, development, pruning, watering, and harvesting;
- promote agroforestry and organic farming;
- promote food-producing reforestation through volunteer development,
- organizing the monitoring of food forest gardens,
- raise public awareness of environmental issues and the importance of biodiversity;
- organize events (workshops, guided tours, inaugurations, etc.) related to its activities;
- organize the sale, on a permanent or occasional basis, of any product or service related to the association's purpose
