CYCLING SAFELY EVERY DAY.

Structure : Exploring the Paimpol Region by Bike (PPAV)

Paimpol

Brittany

Founded on Thursday, March 30, 2023, Pays d'Paimpol à vélo (**PPAV**) has nearly 100 members of all backgrounds and ages, all united by a shared interest: cycling safely as part of their daily lives.

PPAV represents the town of Paimpol as well as the surrounding towns

Hoping to attract as many cyclists as possible, we wish to continue the work we have begun together on:

- our challenges regarding safe traffic flow within the municipalities as well as between them.
- parking, as it is often lacking or inadequate.

Protecting our environment in terms of transportation starts right at our doorstep.

We must anticipate and consider moving away from the current car-centric model. In our own modest way, within our role, we intend to contribute by collaborating with and supporting local elected officials, with whom we hope to have increasingly constructive exchanges to achieve concrete results.
