Digital Decline

Structure : M.I.R. POINT

Île-de-France

The Point de M.I.R association advocates for digital degrowth, condemns human rights violations in the digital sector and related fields, and raises public awareness about the environmental and social costs.

Point de M.I.R is defined by three key pillars:

- Questioning the validity of digital growth: Point de M.I.R advocates for alternatives that aim to restore a central place for people.
- Denouncing human rights violations Point de M.I.R advocates for fundamental rights throughout the entire lifecycle (extraction, manufacturing, use, and end-of-life) of digital devices.
- Highlighting environmental and social costs Point de M.I.R is a pioneer in raising awareness.

Point de M.I.R takes action:

1. By offering awareness-raising workshops (for the general public, schools, and organizations):
    - Workshops
    - Training
    - Conferences
    - Exhibitions
    - Collaborations on numerous projects with other organizations
    - Artistic projects
    - Working groups
    - Publications

By partnering with organizations in France and abroad:

- GoodElectronics
- Climate Academy
- France Nature Environnement
