COMMERCIAL AND SCHOOL-BASED FOOD WASTE COLLECTION AND OUTREACH ACTIVITIES

Structure : QUICK-RELEASE CLIP

L'ATTACHE RAPIDE

Bergerac

New Aquitaine

L'Attache Rapide consists of two divisions:

Service Division:

- biowaste collection services for businesses and residences in Bergerac and the surrounding area, as well as Périgueux
- collection services for events throughout the Dordogne
- Technical maintenance services for composters
- Consulting services for local governments on organic waste management

Community Engagement Division:

- Management of two neighborhood composting sites in Jean Moulin and Le Taillis
- Coordination of a drop-off point in downtown Bergerac
- Activities related to composting and gardening for school and non-school groups (Pass Culture, events, etc.)

BIOWASTE COLLECTION FOR BUSINESSES

As of January 1, 2024, all businesses and households are required to sort their biowaste. It goes without saying that this waste should enrich the soil, not end up in landfills.

OUR INITIATIVES: Bicycle-trailer collection service and organic waste composting:

- Provision of clean bins at each collection
 - ; Collection by bicycle trailer or truck (for producers generating more than 5 metric tons per year)
 - ; Composting in Bergerac
 - ; Tracking of collected quantities using dedicated software (Compostix);
- Issuance of a DAC (mandatory document) at each collection.

SCHOOL COLLECTION Until September 2023, schools in Bergerac did not sort their food waste. More than 30 metric tons of food waste were sent to landfills annually.

OUR INITIATIVES:

Since the start of the 2023 school year, the City of Bergerac has committed to the separate management of food waste from all its schools. L'Attache Rapide provides support to cafeteria staff, supplies clean bins, and handles collection and composting.

EDUCATIONAL ACTIVITIES • Games: The Compost Cycle (beginner, intermediate, and expert levels), "The Hidden Life of Soils" Happy Families game, "Compost Memory" game, "Le Gaspillage"

game • Educational tour: From Garden to Plate (a three-hour activity focused on composting and gardening), including a

"Compost Digging" workshop • A lunchtime food waste weighing campaign to estimate food waste, with options for reporting and implementing an action plan

COMPOSTING FOR RESIDENTS L'Attache Rapide offers residents of Bergerac solutions for composting in their neighborhoods in Jean Moulin and downtown, Monday through Friday

. If you're a group of residents, a local government, or a social housing provider and would like to set up a compost bin? **L'Attache Rapide can help you.**

AVENIR

Winner of the 2026 **Inspiration** Award organized by Crédit Coopératif

L'Attache Rapide aims to transform commercial food waste into "green gold" for farmers and boost the industry
