## LOCAL MEDIA AND SOLUTIONS

Structure : The Transonore

Île-de-France

As a community-based organization, we work with residents to explore their neighborhoods in new ways, discuss environmental issues and solidarity, showcase our communities from a different perspective, share knowledge, discover initiatives, people who offer solutions and new ideas, as well as meaningful careers.

As a local media outlet, we offer positive, community-driven news through our participatory podcasts—created by residents for residents—covering Seine-Saint-Denis and northeast Paris.

What drives us: helping everyone express themselves, take action, and find their place in tomorrow's world, while balancing social, environmental, and democratic issues.
