Consulting and Training for Cooperatives and Social and Solidarity Economy Enterprises

-

Objective: To train and advise stakeholders in the cooperative and social and solidarity economy sectors, equipping them with the tools to manage and lead their organizations independently

Consulting: Develop participatory frameworks to support cooperatives and social and solidarity economy enterprises in their governance, policy and strategic planning, and organizational structure...

Research: To understand, through action research, developments in agriculture and the social and solidarity economy. To develop and evaluate public policies that promote sustainable development and the social economy.

Training: Empower individuals involved in the governance of their cooperatives or associations; share the knowledge and best practices necessary to fulfill responsibilities within SSE enterprises.

Disseminate:

- Are you a member of an agricultural organization or a local government?
- Are you a member of a cooperative or a social and solidarity economy enterprise?
- Do you teach, conduct research, study, or are you simply interested in these topics?
