#company

Turnkey training programs on various topics (the environment, global warming, biodiversity, etc.)

Structure : THE FACTORY OF POSSIBILITIES

Montpellier | Occitanie

Over time, we have developed turnkey training programs on a variety of topics. If you'd like a customized training program tailored to your organization, please don't hesitate to contact us.

In recent years, we have had the opportunity to work with the Montpellier Metropolitan Area, the Agency for Development and Transitions, and the Occitanie Region.

In the private sector, we have chosen to work with both local organizations such as Repar'Stores, Eoden, Scop 3, and Artyzen, as well as national companies such as SNCF and Labeyrie,

. Our ambition to share knowledge and drive change also involves a commitment to continuing our engagement with the local academic community, including Montpellier Management (MOMA), Montpellier Business School (MBS), Idelca, and researchers at IMT.

We advocate a learning model that emphasizes immersion and experimentation.

Our turnkey training programs:

- Program 1: **Climate and Environmental Challenges**
- Program 2: **Integrating Biodiversity into Decision-Making**
- Program 3: **Implementing a Responsible Digital Strategy**
- Training Program 4: **Cooperation and Shared Governance**
- Training Program 5: **On the Path to Regeneration**
- Training 6: **Responsible Communication**
- Training 7: **A Systems Approach to Challenges**

More than 600 people trained and more than 7,000 people supported
