#support

INITIATIVES FOR THE ECOLOGICAL AND SOCIAL TRANSITION OF EVENTS IN OCCITANIE.

Structure : ELEMEN'TERRE

Toulouse

Occitanie

Elément'erre: Working toward the ecological and social transition of events in Occitanie.

Elément'erre's primary mission is to promote the ecological and social transition of events in Occitanie.

By supporting these events, its goal is to create a transformative ripple effect across their entire ecosystems (venues, service providers, artists, local governments, audiences, etc.) and thereby promote a sustainable, just, and environmentally responsible society.

Support and Networking

We offer individual or group support on various topics, notably through the "Événements

détonnants” label.

Training

: Build your skills to drive the ecological and social transition of your event or cultural organization.

Shared Equipment

Reduce waste and lower the cost of your event by sharing equipment with other events. Elémen'terre provides its members with a stock of equipment designed to minimize waste, encourage recycling, and promote sustainable transportation.

From tableware and signage to trash cans, ashtrays, and even bike repair kits—discover our wide range of shared equipment!
