FOSTERING CONNECTIONS AMONG GARDENERS IN THE TOULOUSE REGION

Structure : LET'S SHARE THE GARDENS

Toulouse

Occitanie

Partageons Les Jardins is a nonprofit organization founded in 2012 to foster connections among gardeners in the Toulouse region. It brings together local stakeholders through gardening activities, thereby creating a network that encompasses various forms of community gardening.

"Partageons les jardins!" is a community-based organization committed to environmental issues and collective initiatives in local gardens.

The association's goal is to connect the various stakeholders involved in gardening and raise awareness about them. The association develops resources to promote gardening in the Toulouse region (map of gardens, resource center, information sharing, tours, etc.).

The association's activities focus on two main areas:

- **network facilitation** (for stakeholders and the general public)
- **supporting the creation of community gardens** (local governments, organizations, residents, etc.)

The network's activities

Information booths	Drop-in hours at the garden
Drop-in hours at the resource center	Resource center
Garden tours	Knowledge-sharing workshops
Swaps, healthy seedlings	Community work projects
Gardeners' Carnival	Educational gardens
