FREE REPAIR WORKSHOP TO GIVE ITEMS A SECOND LIFE

Structure : THE HANDYMAN'S CAFÉ

Créteil

Île-de-France

Welcome:

Do you live in Val-de-Marne or East Paris?

Do you know how to repair small appliances, electrical equipment, or bicycles? Can you troubleshoot simple computer or smartphone issues? Or do you have experience with basic mechanics or gluing?

Can you dedicate half a day a month to the Café des Bricoleurs?

Where is the Café des Bricoleurs located? The Café des Bricoleurs is a traveling workshop (Nanterre, Issy-les-Molineaux, Val-de-Marne, Nogent-sur-Marne, etc.)

But what kinds of repairs do we do? Small appliances, electrical work, basic mechanics, simple electronics, gluing, sewing, computers, smartphones, bicycles, sharpening, simple soldering, etc.

Thanks to the Café des Bricoleurs, you save money by extending the life of your belongings, and you get to meet your neighbors or new people. You can also learn how to do repairs yourself.

Support: The Café des Bricoleurs Association provides free assistance to nonprofit organizations looking to start their own repair workshops.
