

ANIMAL RESCUE AND REHABILITATION, WILDLIFE CONSERVATION

Structure : THE WHITE LADY

VALORBIQUET

Normandy

Every year, we take in and rehabilitate more than 1,200 animals from many local species.

La Dame Blanche is a Normandy-based nonprofit organization dedicated to the protection of wildlife.

Formerly a wildlife park, it has evolved to refocus on its primary mission: the care, rehabilitation, and conservation of wild animals.

Today, the center operates on a daily basis thanks to the dedication of professionals and volunteers working to support local biodiversity.

Our missions:

Care and Rehabilitation

Injured, weakened, or orphaned wild animals are taken in, cared for, and supported until they

can be returned to their natural habitat.

Raising Awareness and Educating

The organization informs and raises awareness among people of all ages about the challenges of wildlife conservation and the steps to take when encountering an animal in distress.

Ecological

Monitoring La Dame Blanche participates in monitoring local species and observing human impacts on biodiversity, contributing to a better understanding of the natural world.
