Eco-Friendly and Community-Based Tourism on the Farm

Structure : Farm Stay 42

Auvergne-Rhône-Alpes

Description

Accueil Paysan is an agritourism label that promotes socially responsible and eco-friendly tourism. It offers visitors the opportunity to experience farm life, share friendly moments with dedicated farmers, and support small-scale farming.

Our association brings together active and retired farmers as well as rural stakeholders. All are committed to small-scale farming and sustainable tourism. At Accueil Paysan, we advocate for a way of life rooted in *respect for the earth that nourishes us*, in *human connection*, and in *solidarity*.

In a society marked by overconsumption and waste, we want to return to what truly matters: we welcome tourists, passersby, and neighbors by prioritizing human connections and a sense of community within a sustainable environment.

We are committed to helping people discover our environment, our local farm products, and the

traditions and craftsmanship of our regions.

Accueil Paysan Loire brings together 35 host sites along the Loire River, a network that fosters social connections between urban and rural areas and raises awareness about ecotourism

Main Themes

• Solidarity and respect for the environment•
Active role in promoting the profession•

Activities• Social hospitality•
